## Our Services :

- Mariculture Cages
- Aquaculture Cage
- Floating Jetty
- Floating House
- HDPE Aquaculture Nets
- Aquaculture Tourism

We manufacture durable, corrosion-free floating docks/pontoons from premium HDPE granules, ensuring long life.

We also supply essential cage installation materials like center pins, nuts, bolts, and washers.

## Our Core Products

### Floating Jetty

- Crafted from 100% Virgin HDPE Plastic, ensuring top-notch quality and performance.
- Double Layered design for exceptional sturdiness and durability, making it ideal for rough and tough use.
- UV Treated to withstand prolonged exposure to sunlight and ensure a long-lasting product life.
- Supports a Full Load Capacity of up to 350 Kgs, guaranteeing reliable and efficient operation.

# Star Suppliers

## Our Core Products

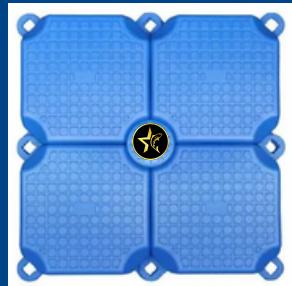

### Floating Walkway

- HDPE Pontoon Cubes
- CAN BE INTERLINKED AND MADE TO DESIRED SIZE
- Weight :7 Kgs ,50 x 50 x 40 Dimensions
- Double Layered, Extremely stable
- Easy to Assemble, 100% Virgin with UV Treatment
- Easy to Install

- Double Layered for Rough and Tough Use
- UV Treated for Long Life
- Upto 350 Kgs\* – Full Load Capacity
- 100% Made in India ,Anti Slip Pattern on the TOP
- CIPET Certified ,Suitable for Sea Water
- Installation Available

# Star Suppliers

## Our Core Products

### Floating House

- Our HDPE Floating House redefines aquatic living, offering a unique blend of comfort, durability, and innovation.
- These houses are built on a foundation of nylon material barrels, with the number of barrels tailored to the house's size.
- Each barrel can effortlessly bear up to 300 kg of weight, ensuring structural integrity and safety.

# Star Suppliers

## Our Core Products

### HDPE Floating Raft

- Our HDPE Floating Raft, measuring an impressive 3x4 meters, is the epitome of aquatic engineering excellence.
- This raft, supported by nine barrels, each capable of bearing approximately 300 kg, has an impressive total weight-bearing capacity of 2 tons.
- The barrels used in crafting this raft are constructed from robust nylon material, encased in sturdy railing pipes and TATA floor sheets.
- The foundational structure of the raft is composed of durable steel square pipes.
